How Bad Backs Have Been Made Strong
—Kidney Pills Corrected.

All over Norway you hear it. Doan's Kidney Pills are keeping up the good work. Norway people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering, and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Norway citizen's advice and give Doan's E. C. Libby, Sanborn St., says: "I had backache a great deal and it annoyed me to do anything. My head ached frequently, too. I also noticed little specks before my eyes and my sight blurred. I used various medicines, but it was left for Doan's Kidney Pills to give me lasting results. Since using them, I have had no return of the complaint and I have great confidence in Doan's."

Husking Bee

Husking bees are very fashionable in this section this fall. Oliver S. Chapman had a gathering of huskers at his home on Saturday evening. Besides the nearby neighbors and friends, there were guests from Kezar Falls, Woodfords and Lynn, Mass., making 32 in all.

Mr. Chapman lives alone, his sister and sisters-in-law attended to the supper for him. Each one cooked some part of the supper and as each one tried to make her cooking the best, the supper was very fine and it was a very hard problem to decide which tasted the best.

After supper the party had a social good time with a little music until midnight when the folks began to depart for their homes.

Curtis Chapman had a husking bee a week ago Thursday. As it was a rainy evening, only 17 were able to come out, but there was nothing lacking for merriment. About 65 bushels of corn were husked. Supper was served by the hostess, followed by singing and violin music.

Monday, Oct. 13, was celebrated as Columbus Day at the Black schoolhouse with appropriate readings by the scholars and a flag raising.

Emmie Durgin is visiting Mrs. Wm. Day.

Milo Morrison was in this vicinity Saturday with a line of winter clothing. Mr. and Mrs. Guy Durgin of Portland were guests of his uncle, John Braden, over the week end.

OXFORD
Hattie Andrews, who has been visiting in Portland for the past two weeks, returned Saturday.

Mrs. Whitney of Harrison, who visited her son, Percy Whitney, the past week, returned Sunday.

George Morris of Portland was in town over Sunday.

Mrs. Amy Berry of Massachusetts is spending a few days with her aunt, Mrs. Winfield French, and other relatives.

Mrs. Chadbourne is moving into the Llewellyn Spurr rent on K. street.

The supper by the high school was a success. They made enough to finish paying the piano.

The Veterans are expected to be at the Corps headquarters Saturday morning, October 18th.

Otho Holden and family went to Lowell, Mass., for his grandmother, Mrs. Augusta Holden, who had been visiting her daughter, Mrs. Florence Rockway, for several weeks and returned Sunday. Dr. Caldwell of Stoneham, Mass., came with them.

Oxford High School
The Seniors and Juniors of Oxford High School served a bakers' bean supper on Oct. 7th. It was well patronized by the town people and all agreed it to be a success.

For more than two years the students of the high school have been working to pay for a piano. The proceeds from this supper will enable them to furnish the payments.

The students deeply appreciate the financial assistance which made it possible to secure this piano and in a comparatively short time turn it over free from debt to the school.

Corns Come Off Like Banana Peel

"Gets-It" Leaves Too Smooth As Your Palm. Never Falls. Ever peel off a banana skin? Well, that's the way "Gets-It" peels off any corn or callus. It's a picnic. Nothing else in the world will do it.

"2 Drops of 'Gets-It,' Goodbye Corns!"

but "Gets-It" because of the new secret principle in the "Gets-It" formula. "Gets-It" does away forever with "contraptions," "wraps," "plasters," ointments that rub off, blood-letting knives, and scissors that snip into the "quick." "Gets-It" eases pain. It takes but a second or two to use "Gets-It." There's no fussing or trouble. It dries immediately. You put your stocking right back on again. Your corn will come off painlessly in one complete piece. That's common sense. It never fails. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill.

Sold in Norway and recommended as the world's best corn remedy by F. F. Stone.

Powerful Pile Remedy Discovered

Has Never Failed to End Most Obstinate Case of Piles in Few Days

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 50 to 80 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.

An Easy Way To Reduce Flesh

Drink Hot Water and Take Tassco

Haven't you often wished for a medicine to reduce your flesh? Something that does not require dieting or calisthenics? Well, right here you have it in 5-grain tassco tablets, which you may secure at A. L. Clark Drug Co. They are pleasant to take, perfectly harmless and cause no restrictions of habit or eating, and reduce the flesh, little by little, until you are down to the number of pounds you wish to weigh. Too much flesh is undesirable, as most quite stout people will readily admit, and it detracts from one's good appearance; makes one clumsy and short of breath.

There isn't any reason why anyone should be too stout, when there's this much-tried, perfectly satisfactory remedy at A. L. Clark Drug Co. Tassco tablets (don't forget the name) are recommended by physicians and are guaranteed to be perfectly harmless. Refuse substitutes, if you cannot come to our store, we will mail tassco to you.

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and “shore off”.

What will you get out of it?

Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real: the kind of work that puts

beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay; over and above your meals, lodging and your first uniform outfit—good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally “tuned up” for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

To any Father and Mother:—
In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts.

The “Autometric” Carburetor

Made by The Yale & Towne Mfg. Co.
STAMFORD CONNECTICUT

What is a sweet running motor?

It's one that runs along with a smooth even flow of power.

Like this?

Or one that skips, backfires, vibrates and shakes itself, the steering post and you.

Like this?

An “Autometric” Carburetor on your car will reduce engine vibration to a minimum.

It automatically feeds the correct mixture for all speeds for dry car. And the mixture is fed to the cylinders as a hot, dry gas. Not as a partially atomized spray or mist.

Each cylinder gets just the amount of fuel it can use and no more. Each cylinder gets the same impulse.

That's one of the reasons why the “Autometric” Carburetor is a product worthy of bearing the trade-mark “Yale.”

Other reasons are that with an “Autometric” Carburetor you get more power and greater flexibility of control, up to 30% more mileage from your gasoline, at least 20% less gear shifting.

Step in and let us arrange to have your own garage man put an “Autometric” on your car on approval. Then you can prove to your own satisfaction what real driving comfort is.

BOYS' AND GIRLS' CLUBS

For excellence of their vegetable display, originality and variety of stage action and volume of club enthusiasm the boys' and girls' clubs of northern Oxford, Friday, set a pace that other county contests in the University of Maine extension series will find it not very easy to follow.

It was the first county contest to be held in Maine this year. University extension leaders whose work is State-wide were there, to assist. County Agent Yeaton and enjoy the fun. George N. Danforth, agricultural teacher, athletic instructor and all-round utility man in the schools of Rumford, was in charge of the program, assisted by Superintendent of Schools Leroy Williams. Miss Foley, teacher of music, and all the teachers in the competing schools.

The club displays were in readiness and the judging all done by the middle of the afternoon. At 6 o'clock lunch was served by girls of the domestic science classes, under charge of their instructor, Mary S. Coombs. Then followed the public exposition and the stage program of folks songs and dances, costumed games, drills and dialogues. Little Indians in war paint and feathers and carrying tommy hawks danced to weird music; girls with their heads down in yellow paper to resemble pumpkins went through a clever drill. There were solos, duets and choruses. One of the striking features was a presentation of scenes from “Hiawatha's Wooing,” a serious-minded little lad of 12 reciting the verses as the acting progressed.

Margaret McCarthy, age 11, daughter of Judge McCarthy, was awarded a special prize for the best story submitted relating to the summer garden work. Adolph Talbot of Rumford, State champion in the garden contests last year, was top-notch in this competition. Stewart Martin won a special prize for the best exhibit of potatoes.

The judges decided that the best school exhibit was that of the MacDonald school, a little four-room building in Rumford's Italian quarter. It was easy to see why the Italian men and women came in such large numbers to the town hall when the evening show was in progress. Rumford's Holland school captured second prize and the Virginia school third.

The Rumford Chamber of Commerce contributed \$100 and the Rumford Trust Company and Rumford National Bank \$50 each for prizes. This total amount was distributed among all the contestants, four classes of prizes being awarded for each variety of vegetables. Every child eligible to participate in the competition carried home some token of success.

It was a great time for Rumford and northern Oxford. Saturday at Norway the clubs of central Oxford held their annual contests. Other county contests throughout the State will follow in close order.

NEWRY

Mrs. Fred Kilgore

The people here were much shocked to learn of the sudden death of Mrs. Fred Kilgore, a former resident of this town.

The funeral was held at her home at Northwest Bethel and the remains were brought here for burial. She leaves a husband and daughter besides a large circle of relatives and friends to mourn their loss. The many beautiful flowers were a silent tribute to show the respect in which she was held by all.

A party of four young ladies enjoyed a very pleasant walk from Bethel to Upton. They left Bethel after dinner Saturday, camping at Poplar Tavern that night, making the rest of the way Sunday morning. One thing is evident, our modern girls do not lack courage.

Freshman Reception
A most enjoyable occasion was the annual Freshman reception in the Grange Hall Friday evening. The program opened with a piano solo by Christina Wilford, '22. Then followed the vocal solo welcome from Ralph M. Bacon of the school board, a recitation by Ethel Wyman, '22, a solo by Gwendolyn Bartlett, '22, recitation, Marguerite Dudley, '22; solo, Edith Buck, '22; reading, Ida Powell, '22. Refreshments were served by the girls. Mr. and Mrs. Ralph M. Bacon, prin., and Mrs. Homer E. Crocker, P. S. Andrews, Mansfield Packard, Harry Packard and Robert Cushman were in the receiving line.

The new Chamber of Commerce held a house warming in their rooms Saturday evening. The rooms have been well furnished and made most comfortable home for the organization. After the regular business session, coffee and crackers were served. The regular meetings of the Chamber will be held on the first and third Wednesdays of each month while the Directors will meet every Thursday.

The plans for the celebration for the returned soldiers are well under way and every indication points to the biggest celebration ever held in Woodstock. Several large guns from the forts at Portland have been secured and will be on exhibition. The committee in charge of the athletics have arranged a fine program for the morning. Several celebrated speakers have been secured. A reception and dance will be held in the evening. The date has been set for Nov. 1.

All ex-soldiers interested in forming a local post of the American Legion will meet in the Chamber of Commerce rooms next Friday evening. Plans are well under way for the formation of the post if there are enough boys interested.

Marjorie Canwell picked a beautiful bouquet of old fashioned "Ladies' Delights" October 13th. The little faces were as fresh and bright as though it were June instead of October. These pretty little flowers are very seldom seen in the present day garden and are common. No pansies however large they may be, will ever be so wonderful to us, as were the Ladies' Delights to our childish eyes.

The frequent rains and the high winds are fast taking the leaves from the trees and covering the ground with a carpet of gold. They remind us of a poem printed in the Advertiser several years ago.

The title of the poem was "Gathering Leaves" and was written by Mrs. E. T. Judkins of North Norway. If Mrs. Judkins would kindly have it re-printed, it would be a great favor and would give pleasure to many readers.

W. E. Canwell shows us a potato raised by him this year which weighs just three pounds. The name of the variety is unknown to Mr. Canwell. He has many very large ones besides.

SOUTH OTISFIELD

Footling Up Matters

There are three big things to be considered in every pair of shoes,—style, quality, service.

Crossett Shoes have always been made for discriminating men. The styles are always in good taste—the quality you know from experience, and the name "Crossett" branded on the soles insures the durability.

We are not selling price-to-day, neither are you buying price. It is value that counts and every penny you put in a pair of Crossett Shoes comes out in wear, with interest.

Come in. Look over the styles we are showing, but do it now while we have your size.

Her husband, Dr. Eugene Andrews, was intending to come, but he had two very sick patients and could not leave them.

Mrs. Eva Millett and children are moving into James Boyle's rent. Mrs. Emily Young is housekeeper for E. W. Chaudron.

C. W. Bisbee's pullets have commenced to lay. John Heald was 84 years of age Oct. 6. The neighbors remembered him with fruit and flowers. His one brother, who resides in California, sent him a remembrance.

Everyone who has apples, are trying hard to harvest them before another frost comes.

Pleasant Pond Fair
Grange cattle show and fair was held at West Summer Wednesday, Oct. 8, although it was a cold day, there was a good crowd. The building on the newly acquired grange lot given the Grange by Rev. Lucian Robinson, was transformed into an exhibition hall and a large assortment of fruit, vegetables, canned goods, food and fancy work was very tastefully displayed.

At the Mary Ann Pulsifer show a very old quilt made by the Indians, also a pair of hand knit stockings worn by her mother 112 years ago. In front of the building a tent was erected where ice cream, soft drinks, peanuts, candy, and cigars were sold near the hall, many of the patrons and spectators were afforded amusement by a bowling alley and ten pin game.

Dinner and supper was served in the vestry by the grange ladies to a large number. Horse pulling in the forenoon was the center of attraction. 1st premium in both classes was won by August Viitala, 2nd by M. C. Barrows, 3rd, H. L. Bisbee; 2nd, Kenneth Sampson, 3d, M. C. Barrows.

The baby show in the afternoon was well attended. The ball game between Mountain Grange and Pleasant Pond Grange was won by Pleasant Pond Grange score 17 to 8.

The space allotted to the fancywork was a center of attraction. Among the exhibitors were Edith Newell, Cora Boyle, Amy Farrar, Nellie Barrett, Effie Chandler, Emma Barrett, Ella Chandler, Minnie Barrett, Elizabeth Newell, Phila Bonworth, Nellie Starchild, Emily Young Zelma Farrar, Luella Beckler, Gladys Knowles, Bertha Cox, Lizzie Keene, Bertha Barrows, Elsie Barrows, Rosetta Ryerson, Lillis Pulsifer, Maimie Chandler, Annie Mary Jane Pulsifer, Iola Chandler, Hatie Sweet, Annie Chandler, Betsy Robinson and Norma Barrett.

Many looked with longing eyes at the case where was displayed samples of summer's good cooks. Mounted deer skins and fish shown by Asa Robinson added to the attraction of the hall, the building was not large, but every available space was utilized. Mrs. Rosetta Rogers donated a beautiful table runner from which they realized \$19.50. Harold H. His was the lucky winner.

A dance in the evening, music by Shaw's orchestra, brought a very pleasant and profitable day to a close. Nearly \$150 was realized to go toward building a grange hall.

More sports and track events were planned but the day wasn't long enough, so were omitted.

Everybody's Doing It

Probably there are very few who can realize the seriousness of the police "walk out" at Boston, as can those who witnessed one of similar nature at the cooper shop at Spurr's Corner on October 10.

However, the U. S. Guard was not called out nor were there any casualties and the employers were able to handle the wounded feelings.

Order was restored in a miraculously short time considering the vast number of men employed and within an hour or two the machinery was running as usual.

Pomona Grange met with the Otisfield Grange Tuesday, October 14. Several from this town attended the Pleasant Pond Sunday School Association held at Webb's Mills, Saturday.

CATARRH DOES HARM

Whether It Is of the Nose, Throat, or Other Organs, Get Rid of It.

Catarrh of the nose or throat when it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

If there is biliousness or constipation, take Hood's Pills—they are a thorough cathartic, a gentle laxative.

Cold relief

A common cause of many colds is the sudden checking of the unconscious perspiration by exposure to a change of temperature. Colds whether taking the form of Coryza with sneezing, running nose, and perhaps sore throat, or with chilly and feverish symptoms, should never be neglected in the earliest stages. Serious illness often results from such neglect.

It is well to get early to bed, to get the body well warmed, and most important to have the bowels moved freely. There is no safer or better remedy to use at the beginning of a cold than "L. F."

Atwood's Medicine. Two to four teaspoonsful will quickly relieve congested conditions, drive out impurities from the system and ward off further trouble. Always keep a bottle in the house. Any dealer will supply you for fifty cents. If you have never used it, write today for free sample to the "L. F." Medicine Co., Portland, Maine.

BASEBALL SERIES

Norway 5; Ward 8 Tigers 4

Norway defeated Ward 8 Tigers in a spectacular finish of the rubber at the County fair grounds Saturday afternoon. The largest crowd for the season assembled to witness the ending of a sensational series which could not be doped accurately until the last batted went into the discard. Billy White and his big league outfit tamed the Tigers after one of the bitterest fights seen hereabouts in years. Everybody declared it a great show, therefore everybody had the right lunch. It was fast and close playing with sectional feeling on the hair trigger. The crowd was like a keg of powder which needed only a spark to blow up the whole garrison.

The world series in the majors had nothing on the bush-leaguers. The peculiar story setting added ting to the show. Both teams represented Norway and had played independent ball during the summer. Rivalry eventually brought the gamblers together, and it developed into a race to secure the best team for a decision. This last crowning event caused to be assembled the best stable of nifty artists "ever shown under canvas" as the lumber tongued front door grinder would say. They were peaches gathered from the four corners of Oxford County plus Massachusetts territory. Not a joker in the pack. All were seasoned veterans with insignia for meritorious service. Each had passed through more than the once over, and went onto the field as registered stock. Therefore, the Norway fans, and sports who drove over muddy roads from Bryant's Pond, West Paris, Buckfield, and other towns were fed upon cream served in a manner to satisfy the most fastidious sporting shark.

Excitement ran riot! You have said it without any misstatements. The ice cream argument in the field. Two umpires were needed, Barb Austin passed the requirements, but the second candidate proposed to break before either team opened any argument in the field. Two umpires were needed, Barb Austin passed the requirements, but the second candidate proposed to break before either team opened any argument in the field.

The game started with each team supporters well sorted out. Norway was a favorite spot along third base line first. Several officers patrolled the lines and kept the restless "bugs" from crowding the game over the line into our sister town. Rooting there was accompanied by blank cartridges and many noise producing implements. Often a timely hitting raised a rumpus among the excited enthusiasts, the grounds compared favorably to an Indian settlement in the grip of crazy medicine-men. Pet corns were abused, the lame walked, the blind could see, and many who claimed profound dignity capered like lamkins in springtime. It was great tonic and opened the throat for the ever present comedian in monologue.

Game Described

Manager White won the toss from Manager Scott Palmer and Norway took the field. Neither team got a runner beyond sack number two base until the second inning when Norway opened the show with a pair of earned runs by Penley and Trafton. Penley the first batter, up-slashed a grounder into left and anchored to second and on the fly into deep center, was forced to second when Stewart walked, then capered home during Purinton's wallop into right near the foul line.

Purinton capped the next run for Norway in the fifth inning. He landed safely once again in the right garden; made second safely when the ball was relayed in; landed on third when Marotte bunt juggled by Fuller at short.

Trafton earned a trip in the sixth with a two bagger; was assisted to third when Stewart singled into center and crossed home as Purinton laid out a fungo to ward center.

The seventh inning was productive of one run and this closed the deal. With went around the circuit on singles by Gaudette and Trafton.

Ward Eight Tigers failed to land a runner on third until the fifth session. In into right and found second before the excitement subsided.

From Roberts' bat and Gaudette's choice second and scratch hit on and Shepard's throw sent a screamer into left. This time and another single by Rowe sent Purinton across the platter, making one run to the good end.

Penley, the crowd went wild during this inning and several times Umpire Anally was the last successful struggle to the seventh. An opening was made in the ninth when Rowe again figured with the wagon tongue for a single. Both runners drew chunks of hard luck this time.

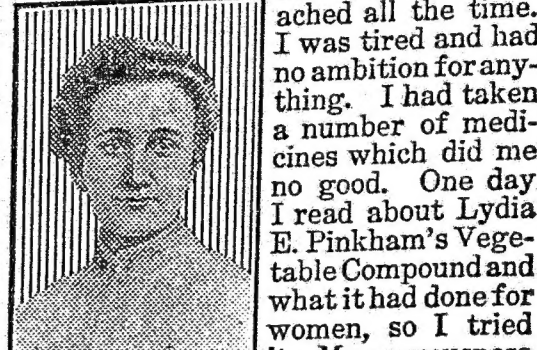

Rowe, Trafton, Fuller and Purinton were the high strike players during the game and found little trouble connecting principally of the Texas league variety, from the fielders' reach for important gains.

Among the prominent features bristling perfect support given by twirler. Both Stewart by several laps when effective box was gilt edged and no time could be have score:

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, aches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADELINA E. LYNCH, 100 Main St., Providence, R. I.

MOOSEHEAD LAKE LETTER

Note—This was written at divers and sun-dry times while the boss was stopping at Sugar Island on his last visit.

I spoke in my last letter of 25 trout coming from Mountain Pond. I did not say what it cost in money to get these fish as I then did not know. The doctor told me the expense of the day. He paid John Bridge, guide, \$5.00; Mr. Greenleaf, two trips to Beaver Creek, \$4.00; for lunch out \$1.05; for extra leader and 6 flies, \$1.00, and 3 Palmachemies, \$.75, making a total of \$13.40. He also paid a day's board at the camp of \$3.50 and put in ten hours of hard work besides two hours and a half of leg weary trail traveling. He fished 3 hours and the balance of the time was spent in going and coming. Hence, grand total of expense, \$16.90 for 25 fish, which probably weighed eight pounds. They cost him more than two dollars a pound. He called it great sport. One-fourth of the trout were given to the guide and the balance consumed here and we all pronounced them extra fine, good, delicious, etc. For flavor, nothing equal to Mountain Pond trout!

I am told on good authority a man and wife at Kineo spend fifty dollars a day for fishing. We dined together on the same lunch grounds at the head of the Island last June. Surely they were great enthusiasts. I saw them last Wednesday, (Sept. 22) at the head of Sand Bar Island, fishing when the wind was blowing a gale and it was a struggle to keep canoes right side up. They were serene and happy and apparently did not know the wind was blowing. The guide, who did it, was with difficulty they could handle the canoe.

Their outfit consisted of two canoes, two guides, a decked in naphtha launch and engineer. The boat was big enough to comfortably live in. It might make a good home when anchored in a sheltered cove. No doubt it returns to Kineo every night so that the day's catch can be seen and the story told of how it was done. This is called: Fresh water sporting de luxe. I think they came from Buffalo, N. Y., and are Mr. and Mrs. Gaston. They have been coming here each season, but one, since their marriage some years ago. I'll not say how many as the item may get to pass and they might be offended. They yet pass for newbies. Mr. Gaston gave me a Kinson fly and requested I give it a good trial. This I did, but without results. Will try it again next season. I was told they expect to go to the Yellowstone Park next season, but will so manage it to get the Spring and Fall fishing at Moosehead Lake.

I got three trout Friday but not on a fly. It was done by trolling in deep water. One small I returned it to the water. The two killed weighed 1 1/2 pounds dressed. Not like what it is in the spring.

Walter has got interested in cards and accuses Elgin of "stacking" when he deals.

I managed in 12 days to get 8 fish, but did not fish persistently. The eight possibly weighed a dozen pounds. The scenery, air and rest was great and the sunset magnificent. It looks altogether different in October than in June. Nature is preparing for a long sleep and birds and animals are not over joyously happy. The crows gather in bands of 20 to 40 and circle silently about while the ducks, gulls and loons seem more distant and shy. Loons have not lost voice. They screech and dive and call to each other in a sociable way.

I was told Kineo had over 500 guests during August. The big house is now closed and they have 15 in the Annex. Everything about the Point is kept up in nice shape. No floating castles are now to be seen in the cove. I managed to find a fairly good specimen of Indian handiwork on stone. It was of the tomahawk variety. An iron tower has been put on the mountain back of the house.

L. W. Weston, formerly of Bolster's Mills, was seen at Rockwood. He has just commenced on his second year. He is clerking in a general store for the Ricker Hotel Company. The manager of the store is Frank P. Reeves, who used to travel on the road and stop with John Woodman at the Beals Hotel. Of course he stocked up with Economy Handles.

The talk about trout coming to a fly in September is a myth. None came to mine. A lone chub came up, looked at it, made a splash and disappeared in the water. That was all.

Have started a new enterprise. It is the making of cedar fans. They will go along well with the can handles I'm selling. I am an individual. I can give a Cedar Split Fan with every four dozen handles sold. Have whittled out more than twenty and Mother claims them all. I suppose she is to decorate a room or maybe sell them at church festivals to raise money for the support of preaching or something of that nature. The fans are fit and good looking. Am to take an armful of cedar home with me to work on this winter.

Beavers have been working not over a mile from Greenleaf's camps. They are on the back side of the island near Dunn's boat house. A poplar tree eight inches in diameter has been felled and dropped into the water. Many of its limbs have been cut and peeled.

"Old Ephraim" has been seen recently. He is white-sided with age and has been roaming over the island for 22 years to Elgin Greenleaf's personal knowledge. Pat Cummings of Norway caught him stealing peas in the garden ten years ago. Elgin says he won't kill him. He is too tough to eat. I saw his foot prints the other morning. They are as big as an ox's and have pointed toes. That is as near as I ever came to him. He drove Amos Thibodeau into the bog seven years ago and made Bill Burgess take to water for two days. Old Ephraim is an awful critter! I don't go out much after dark.

I have found "fungsten", at least that is what Elgin says it is. I shall take it to the Blackford Brothers at Norway and have them pass on it. I think it is a gem. Plenty of clam shells here about, but no pearls found as yet.

Possibly some of our readers may wonder how we pass a five days' heavy south wind on Sugar Island. It is easily told. I watch the waves roll in and lash the wharf and smash in fury on the shore; the sea bird, Hattie, tosses and frets and yanks at her moorings; the leaves rustle and pile in windrows in sheltered places while the fire burns and crackles cheerfully in the open stove. Dry spruce and cedar drift wood sends out a continuous volley of explosions and I'm kept busy picking and sweeping what goes through the screen. I write, read, whistle and think; examine the Indian lore of the stone age and speculate as to how they were made.

I try to hue from the flint a spearhead or utensil in imitation of those I have and fail. Fire and water, blow torch and hammer are used and for an instant I think I have the secret only to find I have not as the flint will break in any way it sees fit, regardless of what I do. A drop of water on hot flint and a quick blow with a hammer gives the best results. The water and blow must come instantly and a chip of flint flies out, but it is a poor imitation of a lost art. Maybe the work was done this way. Who knows? I don't. Leverage is tried, but it's no good, I can't make it work. Heat and water give best results.

I do make fair looking fans out of drift cedar. Some of them are turned with twenty-five splits and in this no doubt excel the Indians of a past age. I have more comforts than they had anywhere, but I'd like to know how they worked Kineo flint. Possibly some of our readers can tell me. I'm willing to be shown.

Mother visits Mrs. Greenleaf every afternoon at 3 o'clock and I have a suspicion they play cards as I overheard them talking about "15-2 and a go" while passing their camp the other day. And, too, "chips" have been known to fall from their pockets in the dining room. Miss Gertrude Haskay, the table girl, told me this. I cannot tell for sure as Mother takes care of her own finances. I let her have some money to keep for me when I came to the island and if she returns it intact, I shall believe there is no truth in this story.

Lou W. Weston of Rockwood came here Sunday and brought with him one of the clerks in the store where he works. He came in Bobt. Stain's "Scout" and of course Bob was with him. The boat is built on the lead pencil plan. It is long and narrow and looks like it would as soon sail over as not. But it doesn't. At least I was so informed. It gets through the water from 17 to 20 miles per hour with very little fuss. The boat originally cost over \$2,000.00, but Bob bought her for a song and has been busy ever since. Lou invited us to go to Spencer Narrows and have supper with him at Stevens' Camps and promised to bring us back early in the evening, but we felt a 20 mile ride in such a rakish looking craft was a little too much. Lou says Mr. Stevens at one time lived in Norway or near there. He is related to Mrs. Cyrus Tucker and calls her aunt.

Lou says the current price for whiskey about Rockwood was sixteen dollars a gallon. It could be obtained at that price. Liquor filters in here from Canada or Boston. I do not know from which place, but it is here.

September 28th (Sunday) first day we have got on without a fire in camp. It has kept Mother and Walter busy piling drift wood on the open fire which burns with a roar and explodes like a Fourth of July celebration. Somehow I enjoy it. The camp seems lonesome without the noise.

Elgin is planting his garden. It does better when planted in the fall. That is what he says. He also is tapping maples and getting ready for sugar making. By so doing, he gets more time for spring fishing. This is what he told me.

Note—in the next installment, Mr. Sanborn has something to say about his "and" of Indian implements of the stone age. He tells when and how found. It also was a sensational on Economic Revolution or in the Maelstrom of Progress. You should read it.

Imperial Singing Orchestra
Dancing with music furnished by the Imperial Singing Orchestra will fill the Grange hall with song and gladness, Friday evening.

These megaphone melody makers are favorites wherever they appear. They render the classic musical hits in a manner several leagues ahead of many combinations trying to get into their class. The rhythm is perfect for dancing. It is nifty and jazzy without a saw filing jargon, voices and instruments blend to a shadow. You can't resist skipping about when the music starts.

As a concert team they are it. Vocal solos and choruses from this male quartet with accompaniment are attractive to auditors, who wouldn't dance a single step. The organization is a real joy-maker to those who appreciate the modern syncopation handed over with a punch, but in good taste.

NORTH PARIS

The numerous friends who have learned to value the presence of the ever cheerful face, the deep thoughtfulness of her native mind, and the ready helpfulness of her loving hands, will be interested to learn that on October 11th, Katherine Lang-Davis was united in marriage to Albert Leroy Lang. Two sons and two daughters-in-law, and a married couple of Mr. Lang's trusted friends attended the ceremony.

The Rev. J. E. Werren tied the knot at his home in Cambridge. Congratulations were all the more enjoyed as a large panorama and amply accessories reminding the happy bride of her sojourn in Center Lovell lent to the occasion a loving background of the past, while wistfully looking toward the sunny Pacific where their future home in Los Angeles, Calif., is to be within the sight of mountains and seas—the grander—still, no more lovely than the views of Maine.

After the ceremony, the party motored to Boston to enjoy a nuptial lunch before the happy married pair would start in the afternoon for the distant home. It is to be hoped that another summer will give Mrs. Katherine Lang's numerous friends an opportunity to become acquainted with her husband, who we are sure, will well worth becoming acquainted with.

Uncle William Stone one of our smart old gentlemen of this town, who lives with his daughter, Mrs. W. L. Heath, spent the day with Mr. and Mrs. F. L. Learned better now. Mr. Stone is 87 years of age and thinks nothing of walking to this village and back in a day a distance of 2 miles each way. He has never had a sick day in his life. He has taken the whole care of a large vegetable garden, beside a large berry patch consisting of strawberries, raspberries and blackberries which he keeps well pruned, setting out a new bed of strawberries each year. Mr. Stone has always been a regular attendant at the Congregational Church at Waterford. He is truly a remarkable man.

Byron Chaplin of Fryeburg shot a large, black bear near Round Pond. Not many bears are shot in this vicinity now. Previous to this Fryeburg had paid a bounty on only one bear.

The country is full of jobs, and apparently quite as full of people who do not want the jobs.

Dear Sir—(Communication)

Every traveler on Waterford roads knew Charles Merrill and thanked him for his untiring devotion to the cause of good roads. One never found him loitering in the shade or idling his time (for which the public paid him in talk. But with his faithful horse as companion and friend he patrolled his section and did what he could to make an important road smoother and easier for those who passed over it. How many other men in the community are contributing anything to help along those who pass their way? He has left a fine example of diligence and industry and of faithfulness to the trust committed to him which those who survive will do well to emulate. —G.
